

SPORB Protocol

The Bridge Between Earth and Space

Token: **\$SPORB** • Chain: **SoLana** • Supply: **100B** • sporb.xyz

// THE VISION

The most valuable company of the next decade won't participate in just one megatrend — it will sit at the **intersection of all three**.

Space

Launch costs dropped 95% in a decade. Edge compute in orbit is now viable.

AI

Inference at the edge, real-time orbital processing — AI is the new electricity.

Web3

Tokenized infrastructure, DAO governance, programmable value.

SPORB Protocol builds the orbital AI infrastructure layer where these three converge.

// THE PRODUCT

LAYER	WHAT	STATUS
Space	Low-orbit satellite edge computing nodes	R&D
AI	Proprietary AI for orbital-edge deployment	R&D
Bridge	Earth-to-space data relay & tokenized access	Architecture

LAYER	WHAT	STATUS
Token	\$SPORB — company equity representation	✓ Deployed

Revenue model: Services charge **USDC**. Company profits buy back \$SPORB from market.

// TOKEN UTILITY

✓ Equity representation	\$SPORB is a company token, not a meme or payment gimmick
✓ Buyback engine	Real service revenue → market buybacks → value accrual
✓ Governance	DAO for protocol upgrades and Space Fund allocation
✓ Utility floor (\$1)	Announced when services are live
✗ No complex burn	Simple, clean tokenomics
✗ No double-token	Single \$SPORB until aCREDIT in Phase 2

// TOKENOMICS

Total Supply: **100,000,000,000 (100B)** \$SPORB

ALLOCATION	%	AMOUNT	VESTING
Ecosystem Fund	30%	30B	DAO-governed, 10yr
Public Sale	15%	15B	5% at TGE, 3mo linear
Strategic Investors	10%	10B	6mo cliff, 24mo linear
Team	10%	10B	12mo cliff, 48mo linear
Community Rewards	10%	10B	5yr mining
Space Fund	10%	10B	Milestone release
Liquidity	5%	5B	100% at TGE

ALLOCATION	%	AMOUNT	VESTING
Advisors & Partners	5%	5B	6mo cliff, 24mo linear
DAO Treasury	5%	5B	DAO governance

// TRACK RECORD

MILESTONE	STATUS
Token deployed on Solana mainnet	✓ Live
Website & domain (sporb.xyz)	✓ Live, SSL
Early Access whitelist	✓ Open
Metadata updated (SPORB Protocol)	✓ Done
Smart contract	✓ SPL Token
Liquidity pool	⌚ Launch w/ services

// COMPETITIVE MOAT

FACTOR	SPORB	TYPICAL SPACE TOKEN
Real service revenue	✓ USDC charges, buyback model	✗ Hype-only
Team token vesting	✓ 48mo with 12mo cliff	✗ Often 0 cliff
Supply control	✓ Creator holds 100%, responsible release	✗ Dump risk
Dual-token avoidance	✓ Single \$SPORB until Phase 2	✗ Overcomplicated
Stealth approach	✓ Cryptic until services ready	✗ Overpromise

// ROADMAP

Phase 1 — Foundation 0-12 months

- ✓ Token deploy & website
- ✓ Early access whitelist
- 🔄 Trading bot profitability → seed capital
- 📅 17 CFD EA development (200:1-1000:1 leverage)
- 📅 17 Strategic R&D grant applications
- 📅 17 Government grants for zero-dilution R&D funding

Phase 2 — Service Launch 1-3 years

- 📅 17 First satellite partnership or hosted payload
- 📅 17 Orbital AI inference node (MVP)
- 📅 17 Token liquidity pool launch with \$1 utility floor
- 📅 17 aCREDIT stable payment token (Phase 2)

Phase 3 — Scale 3-7 years

- 📅 17 Satellite constellation (edge computing nodes)
- 📅 17 Space data center proof-of-concept
- 📅 17 Enterprise service revenue

Phase 4 — Autonomous 7-10 years

- 📅 17 Full orbital infrastructure
- 📅 17 Own launch capability
- 📅 17 DAO-managed Space Fund

 **Investment Opportunity**

SEEKING

STAGE

Strategic investors & grant funding

Pre-revenue, pre-seed

USE OF FUNDS

Satellite R&D, AI model training, orbital
payload partnership

STRUCTURE

Token allocation + future equity (HK
company planned)
